

Frequently Asked Questions

How do I know if I am eligible for psychedelic-assisted therapy studies?

Each trial has its own set of eligibility criteria that participants must meet that may include age, medical history, and previous experiences with psychedelics. Our team will assess your eligibility during the screening process.

What safety measures are in place during the trials to ensure my well-being?

Your personal safety is our number one priority. We have rigorous safety protocols in place, and our team includes medical professionals and therapists trained to handle any potential challenges or adverse events that may arise during the sessions.

Is there a cost to participate in a clinical trial?

Participation in a clinical trial at Sunstone does not require any payment from the participants. However, please note that travel expenses are not covered.

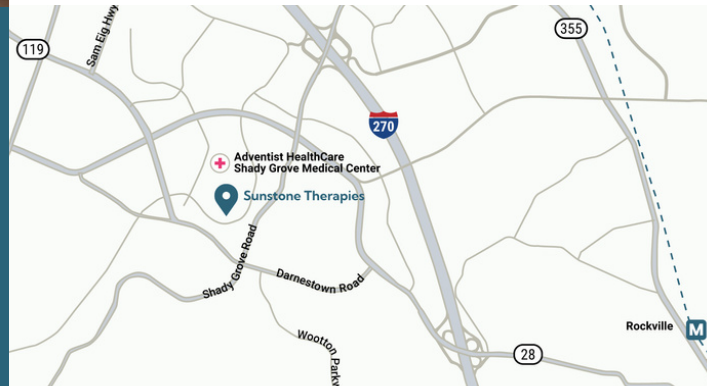

Whole Person Healing for All

About Sunstone Therapies

Sunstone Therapies is a leader in the delivery of psychedelic-assisted therapy in the medical setting, focusing on clinical trials today and future clinical delivery when therapies are approved.

Sunstone is establishing the gold standard for psychedelic clinics in order to deliver care that reduces the emotional suffering of those affected by cancer and complex mental health challenges, and to make safe, effective psychedelic-assisted therapy an accessible reality.

Whole Person Healing

Fundamental to our approach is the belief that health is not just the absence of illness but a state of emotional, social, and spiritual well-being.

With a range of clinical trials, a highly-trained interdisciplinary team, and purposely designed centers, we are committed to treating the whole person.
